## EDUCATION

**ITM (SLS) Baroda University**
*B. Tech in Computer Science Engineering*                                                 *2021-2025*
CGPA: 8.5

## WORK EXPERIENCE

**LetsGrowmore(Remote)**                                                             **Vadodara, India**
*Web Development Intern*                                                             *Aug 2023 - Sep 2023*

- Web Development intern– LetsGrowmore (2 months)
- Skills: Responsive web design, user interface development, frontend & backend integration, cross-browser compatibility.
- Technologies: HTML5, CSS, JavaScript
- Impact: Gained practical experience in responsive web interfaces that enhanced user experience and engagement cross-browser compatibility and seamless frontend-backend integration for optimal performance.

## PROJECTS

**Diascan – Intelligent Diabetes Management System**
*Major Project(Current in Development)*

- Technologies: Next.js, React.js, Tailwind CSS, FastAPI, Express.js, MongoDB, JWT, Python, Redux Toolkit,
- Features: Provides diabetes prediction through form and PDF input, risk assessment, user-specific dashboards, authentication, and personalized health recommendations (diet/exercise). Includes hospital finder, and email integration.
- Impact: Empowers diabetic patients with early detection, continuous tracking, and personalized guidance for better health outcomes.
  Project Link: https://github.com/rutvikp003/Diascan.git

**TF-IDF & CNN-Powered Car Recommendation and Recognition System**
*Major Project*

- Technologies: Python, Flask, TensorFlow/Keras, Scikit-learn, Pandas, SQLAlchemy, HTML, CSS, JavaScript
- Features: Combines TF-IDF and Cosine Similarity for car recommendations with CNN-powered SageLens for image-based car model recognition.
- Impact: Enhances user experience with personalized recommendations and accurate image-based car identification.

## SKILLS

- **Programming Languages:** Python3, Java, C, javascript
- **Frameworks:** React.js, Express.js, Next.js, FastAPI, Redux Toolkit, Tailwind CSS, Bootstrap, Mongoose
- **Tools:** Git, GitHub, Postman
- **Basic Com. Knowledge:** OS, Networking, Profecient in Data Structure & algorithms(In Java),UML
- **Platforms:** Windows, Linux
- **Database:** MySQL, PHP. MongoDB
- **Other Skills:** Leadership, Quick Learner, Problem Solving, Positivity
- **Languages :** English, Hindi, Gujarati

## CERTIFICATIONS

- **The Full-Stack Web Development Bootcamp,** *By Udemy*
- **Python – DataScience and Machine Learning A-Z,** *By Udemy*
- **Wordpress: Build Any Websites In Minutes,** *By Udemy*
- **Big Data Analytics,** *By Great Learning*

## ACHIEVEMENTS
